Reflections

Reflections is an annual science festival hosted in Pondicherry University by Department of Physics. In order to honour Sir C. V. Raman and his contributions to the scientific world, India celebrates February 28th as the National Science Day.

"Reflections" is the program celebrated on this day to bring out talents of young minds. It aims to popularize science through innovative events, competitions and sharing of ideas. This program helps the students to nourish their path in the field of science. It is one of the open door to the common people to feel the essence of science
