About Pondicherry University

A Central University, established through an Act of Parliament in 1985. The campus is covered over 780 acres of land with lush green tropical vegetation and its entire campus in Wi-Fi enabled. It has about 5000 students representing 33 states of the country and abroad and over 450 highly qualified faculty from across the country. It has the state of the art library with remote access to over 31000 digital information resource through a dedicated library portal. Pondicherry University was the first university to adopt the CBCS and semester system which easily facilitates the mobility of the students with credit transfer both in India and abroad. The university in growing with a cardinal principle of expansion with excellence and equity remains connected globally. More than 27 MOUs have been signed with National Institutions and International Universities for exchange of faculty and students.

About Department of Management Studies

The Department of Management Studies (DMS) bears the sole pride of establishing the first management programme in Pondicherry. Since its inception in 1986, it has been catering to the needs of aspiring management and research students with highly competent team of faculty members. The department has published many research articles in leading national and international journals. DMS serves as a boom to the ardent students who have the striving thrust to learn and practice management. Also, the lush green environment in the university provides pleasant ambience for the students to relish every moment of the learning experience. DMS functions as university department with unique importance. The department has been rated high by rating agencies such as NAAC, Star News, Indian Express, CSR-GHRD etc. The department has recently signed MOUs for exchange of students and faculty members with popular European universities of France and Germany.

About The Programme

This five-day EDP is intended to impart researchers, academicians and industry delegates with a comprehensive knowledge about making predictions using Econometric tools. The EDP will be conducted such that the participants can gain practical knowledge about making predictions using Econometric tools. Real data will be provided and arriving at models shall be demonstrated in the video classes by the resource person. The program will be a mix of theory lectures and demonstration through online presentations.
