Date and Time: September 6, 2019 (Friday), 3.30 P.M.
Venue: Seminar Hall, Centre for Bioinformatics, PU

ABSTRACT

Chemistry, a central science, caters to multiple domains, like medicine, materials, energy storage, dyes and many more, through its ability to synthesize customized molecules/systems having various complexities and wide varieties of shapes, geometries and functionalities. This talk aims to address, how bioinformatics researcher can coordinate and provide leads for greater insight to the respective research domains.
