About Pondicherry University, Puducherry

Pondicherry University is a central University in Puducherry, established by an Act of Parliament in October 1985. It is an affiliating University with a jurisdiction spread over the Union Territories of Puducherry, Lakshadweep and Andaman and Nicobar Islands. Pondicherry University holds a special place in the Indian University System. It was created to meet out the demands of the local community, and ever since its inception in 1985, it has shown a tremendous commitment to innovation and to serving the needs of the nation. Pondicherry University is situated on the Chennai-Puducherry East Coast Road (ECR). The Pondicherry University is located at about 11 Kms north town of Puducherry. The main campus is located at R. V. Nagar, Kalapet, in a peaceful and beautiful campus of around 800 acres.

About the National Academy of Biological Sciences (NABS)

National Academy of Biological Sciences (NABS) was founded on 31st December, 2004 by (Late) Prof. Dr. S. Kannaiyan, the then Chairman, National Biodiversity Authority, Ministry of Environment and Forests, Government of India, Chennai, Tamil Nadu with a vision to provide a common platform for the biologists to interact with each other for mutual benefit and to further the knowledge on areas of biological sciences. The Academy was registered as "National Academy of Biological Sciences" under the Tamil Nadu Societies Registration Act 1975 (TN Act 27 of 1975) on 10th March, 2005 at Chennai South, Saidapet, Chennai – 600 015 with Certificate of Registration No. 110 / 2005. Preamble about the Conference

Climate change is a shift in “climate” relative to given reference time period. It is caused by (i) natural factors like solar variability, volcanic dust levels, internal variability and geological changes, and (ii) human factors like green house gases, aerosols, ozone depletion and land use change. Climate change impacts through increasing temperature, increasing atmospheric CO₂ concentration, change in precipitation and evaporation, melting of glaciers and rise in sea level. The climate change will have multiple impacts on ecosystem and the biological diversity associated with it. The conference will focus on the Climate Smart Approaches in various fields.

Conference Themes

- Plant, Animal biodiversity and Fishery Sciences
- Impact of Climatic Changes on Agriculture and Forestry biodiversity
- Plant Genetic Resources and Protection of Plant Varieties
- Impact of Climatic Changes on Microbial biodiversity
- Impact of climate changes on defense strategies
- Nutrition and Food security
- Impact of climate changes on space missions
