TWO-DAY NATIONAL LEVEL WORKSHOP

on

Art of Writing Research Articles

During

27-28 March, 2017

Department of Economics
School of Management

Pondicherry University

Puducherry - 605014.

Pondicherry University

Pondicherry is one of the typical territories of India. Pondicherry University, established under an Act of Parliament in the year 1985, has grown from strength to strength in all possible ways over the years and has presently become an educational hub of the country. It has all the state-of-art facilities in all the Schools and Departments, paving way for the students to have a friendly and result-oriented academic environment within a green ambience. The thrust areas of the University are Research and Innovations, both in Sciences and Social Sciences. It has gained visibility with respect to Science and Social Sciences with MHRD and UGC. The intellectually stimulating milieu, good pedagogy and a multi-cultural environment makes the University very distinct and unique from other such institutions in the country.

School of Management

School of Management (SOM) is one of the popular Schools of Excellence in the campus, primarily focusing on business related courses, since the very inception of the University. This school includes the Department of Management Studies, Department of Commerce, Department of Economics, Department of Tourism Studies, Department of Banking Technology, and Department of International Business. Further, in Karaikal Campus, two departments have been established, Viz., Department of Management and Department of Commerce. The School of Management has been providing specialized skill based academic environment, with a focus on teaching and learning in different fields. All departments in School of Management are well equipped with air conditioned classrooms, Wi-Fi and Computer Labs. with domain specific Softwares. Moreover, the School of Management subscribes to advanced databases like CMIE I3 data services, Bloomberg database, in addition to E- resources, HBR cases, SPSS software, Indian Economy Databases, Capital Line, etc.

Department of Economics

The Department of Economics is one of the popular branches of study in Pondicherry University; primarily focusing on teaching, research, placement and extension activities, since the very inception of the University. It was established in 1986, and is a constituent of the School of Management. It offers M.Sc. Five Year Integrated courses M.A and Ph.D. programmes, with a total placement focus. Continuous research activities are going on in the department in various prime areas. As a part of research, there are a number of projects undertaken by the faculty members funded by Reserve Bank of India, various Ministries of Govt. of Puducherry & Govt. of India, University Grants Commission, ICSSR, etc. Besides, faculty members have published research papers in reputed journals. Every year the Department conducts national level seminars, conferences and workshops in various areas of Economics, areas wherein experts are invited in the related field to

participate in panel discussion. Further, every year a good number of students clear UGC-NET/JRF examinations, and are placed in reputed institutes of the country. The Department also has been granted SAP.

About the Workshop

Publishing research outcomes is attracting considerable attention of researchers, academicians, officials and policy makers in the past few decades. Research articles written by doctors, professors, researchers and other scholars are the primary literature, which makes valuable contributions to discourse in every field of inquiry and growth of all creative fields. In the present context, one reason for publishing in academia is the need to get name out in the field, and build academic reputation. The quality and quantity of a researcher's publications provide a key measure of their research productivity. Consequently, publication track records are often used to determine whether or not researchers get hired, promoted, or funded for their future research. In addition, at the institutional level, the quality and quantity of a university's publication output helps to determine its international reputation and the amount of funding that it receives based on national research performance reviews. In particular, researchers are now told that they must not only publish their research, but also get their publications acknowledged by other researchers and society at large. In practice, this means that researchers need to get their publications (a) cited in the work of other researchers, and (b) discussed in traditional and on line media. To help achieve a greater scholarly and public impact, researchers must promote and advertise their work as much as possible. Publishing research article is an important indicator of successful operational research at programme level in low-income countries. In academia, publishing in peer-reviewed scientific journals is highly encouraged and strongly pursued for academic recognition and career progression. In this respect, the present workshop will lead the participants on the right path of academic publication and growth. Its objectives are:-

- ❖ to familiarize the importance of publication among the research scholars and young faculty.
- ❖ to explain the sources of data availability from different channels to prepare, research articles,
- ❖ to enlighten the components of research articles in the present scenario and
- ❖ to inculcate the art of preparing/publishing research articles.

Workshop Themes

- ❖ Significance of scientific publication
- ❖ Common structure of research article
- ❖ Collecting sources - tips and tricks
- ❖ Art of preparation of content
- ❖ Reference preparation
- ❖ Sending process
- ❖ Other related aspects

Submission Format

Researchers/young teachers may prepare their bio-data with a copy of their Ph.D registration. Organizing committee members will select the participants, if there is an overwhelming response. Further, it is decided to follow first come first serve method. Hard copy of the registration form has to be sent to the following address: A.Sankaran, Faculty Member, Workshop Convener, Dept. of Economics, Pondicherry University, Puducherry. Accommodation (on sharing basis) can be arranged nearby or inside the university to the outside participants. Food and refreshments will be covered by the organizing committee.
