Dear Prof. Chandra Krishnamurthy,

Subject: Seventh Asian Science Camp - 2013 at Tsukuba, Japan
during 25 - 30 August 2013

The Asian Science Camp was planned with the Lindua Science Meeting as a model, which has been annually held in Lindua, Germany for more than half a century. Nobel Laureates and world class Researchers are invited to the event as Leaders and they provide an inspiring, interactive program to the participants. The program includes plenary sessions, parallel discussion sessions among Leaders and students, poster presentations, a social get together and excursions.

The aim of the Asian Science Camps is to bring together talented science students and enlighten them through discussion and dialogue with top scholars in the world and promote international friendship and cooperation among the best young students of the next generation in Asia, Australia and Oceania and encourage deeper thinking about science and scientific knowledge.

Asian Science Camp - 2013 is the seventh of the series and this has been scheduled to be held at **Epochal Tsukuba-Tsukuba International Congress Centre, Tsukuba, Japan** during August 25-30, 2013. Over 200 students from all over Asian countries are expected to participate in this event. The previous camps were successfully held at Taipei (2007), Bali (2008), Tsukuba (2009), Mumbai (2010), Daejeon (2011) and Jerusalem (2012).

Every year the Department of Science & Technology (DST), Government of India is extending its support to 25 bright Indian students to participate in the ASC. The DST will cover all expenses towards (i) their travel to Tsukuba and back (from Bangalore), (ii) Domestic travel by 3rd AC to Bangalore and back. There will be no registration fee and the camp organizing committee will provide the participants local hospitality at the camp in Tsukuba, Japan.

May I request you to nominate 2 or 3 students from your institution who are pursuing basic Science course in the 1st year of B.Sc / B.S. / Int. M.Sc. / M.S. program during the academic year 2012-13. The students have to be outstanding in Mathematics or natural sciences including Physics, Chemistry and Biology. The students should:
