About Puducherry and Pondicherry University

Puducherry is situated on the Coromandal coast, 160 km south of Chennai. It is now a growing city and the capital of the union territory bearing the same name. Puducherry, which attracted the French to settle here two centuries ago still carries several marks of French culture and heritage. The intellectual activities are fostered in many of its institutions such as Sri Aurobindo Ashram, the French Institute and Pondicherry University (PU).

Pondicherry University (PU) is the fastest growing Central University. With sprawling campus of 800 acres, it caters to more than 5000 students with 500 faculty. There are 150 program options offered through 45 departments / centers. PU is located 13 kms north of Puducherry main town on East Coast Road which leads to Chennai.

Chemical Research Society of India

The Chemical Research Society of India (CRSI) was established in 1999 as part of the 50th anniversary of the country's independence. The main objectives of CRSI are to recognize and foster talent in chemistry. It recognizes and honors scientists working in different areas of chemistry through awards, medals, grants, etc. The year 2011 is being celebrated as the International Year of Chemistry (IYC 2011) and, as part of this celebration, CRSI is organizing several activities at different places across the country, including four zonal meetings to promote chemical research and chemical education. The first zonal meeting was held at the National Chemical Laboratory, Pune and the two subsequent meetings were held at North Bengal University, Siliguri and Jammu University, Jammu. The fourth and final zonal meeting is being organized at the Pondicherry University. The purpose of this meeting is to provide a forum for scientists, teachers and students from the southern region to participate and discuss the recent developments in chemical sciences.

Department of Chemistry, Pondicherry University

The Department of Chemistry, Pondicherry University was established in 1987. Since then it has been engaged in teaching and research in the contemporary chemistry. Major thrust areas of the Department include Organic Synthesis, Magnetic Resonance, Solid State Chemistry, Organometallic Chemistry and Theoretical Chemistry. The Department offers Post-graduate programs in Chemistry including M.Sc. (2-year), M.Sc. (5-yr integrated), M.Phil. and Ph.D.
