E-CIRCULAR

Presentation on Springer Products

Will be organised at J.N. Auditorium on 8th October 2013 at 3.00 pm.

Springer Products (subscribed by UGC-INFONET & Pondicherry University)

- e journals
- protocols
- ebooks
- Lecture Notes in Mathematics (LNM), Physics (LNP), Computer Science (LNCS)
- Materials Database – Landolt Börnstein

Springer Protocols is the largest subscription-based online database of reproducible laboratory protocols in the biomedical and life sciences. Springer Protocols offers researchers access to nearly thirty years of tested, trusted, step-by-step protocols for immediate use in the lab. With an emphasis on comprehensiveness and clarity, each protocol is organized in an easily reproducible recipe style. Protocols are written by experts in the field and are reviewed by editors distinguished in their specific subject areas. Springer Protocols is an invaluable resource for the modern research laboratory.

The series **Lecture Notes in Computer Science (LNCS)** [Lecture Notes in Artificial Intelligence (LNAI) & Lecture Notes in Bioinformatics (LNBI)], **Lecture Notes in Mathematics (LNM)** and **Lecture Notes in Physics (LNP)** reports new developments in the relevant field of research and teaching and aims to summarize and communicate current knowledge in an accessible way.

Springer Materials has the biggest data resources of Materials Science. The high quality of data come from Landolt Börnstein Database, the inorganic solid phase of Linus Pauling File Database, the thermo physical properties of organic compounds of Dortmund Data Bank, The safety supervision chemical security database of REACH, GHS, RoHS and WEEE. Its contents examined and appraised by thousands of experts, are accurate and reliable, quarterly update, synchronize with the development of science and technology.

All the faculty, research scholars and students of respective Departments are invited for the presentation.
