OSD, SCM

Dear Sir/Madam

As you are aware, Smart Cities Mission has completed 3 years on 25 June 2018. During the last three years, project implementation has picked up pace. As the Mission progresses, there will be a large repository of data available for basic research and analysis and for documenting best practices.

2. In this regard, I am happy to inform you that Ministry of Housing & Urban Affairs has launched two new programs, viz. (1) India Smart Cities Fellowship Program, and (2) India Smart Cities Internship Program, with an aim to harness youthful energy, and fresh perspectives of the youth to assist in mission implementation.

3. The India Smart Cities Fellowship Program is designed to engage 30 young and bright fellows to provide necessary support to Mission Director, Smart Cities in MoHUA and/or CEOs of selected Smart Cities in terms of analytics, research, documentation, independent assessment, visualization or any other related activities including preparation of reports, posters, dossiers, etc. They would have a great opportunity to learn from top leaders and practitioners driving different interventions in India's urban sector.

4. The India Smart Cities Internship Program seeks to engage around 30 young students to supplement the process of implementation of Smart City Projects in various States/Cities. The interns will be exposed to vast cohort of city leaders and practitioners and will gain insight into policy formulation and implementation required for transforming the urban landscape of the country. The interns will carry with them a rich experience in urban governance which will help them in their future endeavors.

5. I request you to widely publicize the two programs in your State and ensure maximum participation of eligible candidates from various Universities and Premiere Institutes from across the State. This will prove to be a great learning experience for the young scholars as well as bring new and innovative ideas for better and faster implementation of the projects under the Mission. The details of the programs and the application form can be accessed at: <https://smarnet.niua.org/fiscfp/>

Please circulate widely with reg. - All VC - Advt. Engg. Univ. Higher Edu. Govt.

Yours Sincerely,
(Kunal Kumar)
