

## Workshop on SCOPUS (new interface) and MENDELEY

6 March 2014

### Elsevier & Ananda Rangapillai Library, Pondicherry University

**Elsevier** is the world's leading provider of science and health information and serves more than 30 million scientists, students and health and information professionals worldwide by providing world-class information and innovative tools that help them make critical decisions, enhance productivity and improve outcomes.

**SCOPUS**, the largest abstract and citation database of peer-reviewed literature, features smart tools to track, analyze and visualize research. Scopus delivers the most comprehensive overview of the world's research output in the fields of science, technology, medicine, social sciences and arts and humanities.

**MENDELEY** is a free reference manager and academic social network that can help the researchers to organize the research, collaborate with others online, and discover the latest research. Mendeley automatically generate bibliographies, collaborate easily with other researchers online, easily import papers from other research software, find relevant papers based on what the researchers are reading and so on.
