Ears to the Ground/ Ending Silence/ Speaking Aloud
Developing Gender Sensitivity on Sexual Offences

6 -7 March 2013

at the

Social Sciences Seminar Hall, II Floor, Silver Jubilee Campus

Eve teasing, sexual harassment and rape are all a continuum in the wide spectrum of violations that women experience in public spaces. In a society where sexuality, gender roles and expectations are vexed with issues of power and control, how does one talk about one's experiences? How do we go about understanding these problems? What are the ways in which we can combat these offenses? How do we sensitize ourselves to these issues? What does the law say? Come to the workshop and think aloud on these issues.
