

Department of Chemistry

Pondicherry University

Congratulations

April 6, 2015

Taniya Adak, a 5th year integrated M.Sc. student (2010-15 batch) from department of Chemistry, Pondicherry University, got DST-DFG award to avail a once-in-a-lifetime opportunity to meet and interact with 70 Nobel laureates on a picturesque island in Germany. She has been selected to participate in the 65th Lindau Nobel Laureates meeting (June 28 – July 3) through a highly competitive and multi-stage international selection process bringing together 672 young researchers from 88 countries to interact with 70 Nobel Laureates from the fields of physiology and medicine, physics and chemistry. She is one among 16 Indian young researchers selected for the award. At the interdisciplinary meeting, she will have the opportunity to learn from and interact with the Nobel Laureates through lectures, panel discussion and master classes. Following the meeting, the German Research Foundation (DFG- Deutsche Forschungsgemeinschaft) has organized a week long (4th to 10th July) visit to different German universities and academic institutions at various locations.
