Dt. 04 12 2019

## SWAYAM COURSE REGISTRATION

The Academic Advisory Committee in its meeting held 24 10 2019 resolved the following with regard to registration of MOOCs courses by the students of Pondicherry University:

1. Students of Pondicherry University can register only to the MOOCs courses offered by SWAYAM Platform, for credit transfer as guided by the UGC. And these courses should be recommended by the Programme Committee of the respective Department where the student pursues his Masters Programme.
2. All MOOCs course pursued will be treated as Soft-core courses only. And it is optional to the student to choose a course in consultation with the faculty advisor and with the approval of department programme committee.
3. Credits to the softcore courses will be confined to 2 or 3 credits and subject to a maximum of 5 credits per semester. Students can register for a maximum of two courses per semester.
4. No student shall register for online MOOCs courses during the final semester of his / her programme.
5. Registration in SAMS of online courses will be permitted only in the subsequent semester. For example, an online course successfully completed by a student during odd semester can be registered with the SAMS during the start of the subsequent event semester.
6. To coordinate the registration of MOOCs courses at the Department level, a faculty coordinator is to be nominated by the HOD for each department. The concerned faculty coordinator will carry out the normalization of marks and credit generation for the MOOCs courses.
7. Results of online courses have to be placed before the Programme Committee of the respective departments.
8. MOOCs courses should NOT be included in the regular syllabus of the Programmes of study as the MOOCs courses may be dropped by the SWAYAM, depending on its viability.

For any further clarification on this, Assistant Registrar (Academic) / SWAYAM Coordinator may be contacted.
