EVENTS

Scientific Talk : Popular talks would be delivered by eminent speakers.

Open House : An event where state-of-the-art experimental facilities available for research at the Department of Physics, individual faculty members of the Department and Central Instrumentation Facility, would be displayed. It would also provide a chance for the participants to interact with the technical staff at the labs, the faculty and research scholars of the Department.

Science Exhibits: Simple science experiments at display, elucidating concepts in physics. A team of 1 - 2 students carry out the illustrations and would be available for discussions on the underlying principles illustrated in the exhibit.

Science Quiz : A competition among teams of 2 students each (Category - 1 : VIII to IX standard ; Category - 2 : UG/PG level) to test the knowledge of science facts and applications of scientific principles

Science Skit : A drama/play where students create appreciation/awareness of any scientific topic.

Posters : The poster session is to encourage students to identify a topic in science that would interest them and present it in the form of attractive posters.
