National Conference on Future Computing - March 2012

Station Options

▶ FUCOMPU

FUCOMPU (Future Computing[]), organized by the department of Computer Science is back, this year bigger, and better. We seek to amalgamate the best of Science & technology with creativity, bringing to the foray an astounding sight that promises to leave you spellbound. It's a call for all the ardent tech enthusiasts to showcase their talents on a challenging platform. Department of Computer Science of Pondicherry University karakal campus bestows upon its students with the most innovative and contemporary technical guidance that will help them remain competitive and relevant in the ever - evolving field of Computing. FuCompu is one of the initiatives taken by the Computer Science department aimed at nurturing and fostering students for the real world challenges that lie ahead of them. A technical Conference gives a chance for students from the length and breadth of our country to meet and compete with each other. FuCompu provides a grand podium for all young minds to mix up with their breed, share their views, thoughts and ideas; for the spectators there is plenty to learn and for the competitors there is much more to earn. This day FuCompu promises to be a truly enthralling experience.....
