

PONDICHERRY UNIVERSITY, PUDUCHERRY – 605014
PLACEMENT CELL

February 15, 2012

NOTICE

Attention: Freshers and Experienced (upto 5 years)

Company Name: SeaAnt, Chennai

Eligibility: As given in the attached PDF document

CTC: 1.20 Lac to 1.50 Lac PA during the trainee period (1 year)
1.80 Lac to 2.40 Lac PA after 1 year trainee period

Location: Chennai

Who can Apply: Freshers and Experienced candidates of PU and other Institutions

Eligible students as per the requirements given by the company, as given in the PDF document, can submit the Resume at [**resumetopu@gmail.com**](mailto:resumetopu@gmail.com) on or before **Friday, February 24, 2012**.

Please give the subject of your email as

Subject: Application for SeaAnt / Profile / Position

Note: Check the attached PDF document to know about the Profile and Position.

Example: Application for SeaAnt / Core-Common Tech Team / Architect

Placement Co-ordinator

SeaAnt Talent Pool

Core/Common Tech Team

Role	Experience	Head counts needed right now	Heads counts planned	Gender Preference
Architect	5 years	1	3	Male
Tech Manager	4-5 years	1	2	Male
Tech Writer	1 year	1	1	Female
Testers	1 year	2	2	Male/Female
UI/UX Engineer	1-2 year	1	1	Female
Graphics Designer	1-2 years	1	1	Male
System Administrator	1 year	1	2	Male

Web Team

Tech Lead	2-3 years	2	2	Male/Female
Sr. Software Engineer	1-2 years	3	3	Male/Female
Software Engineer	6 months - 1 year	3	3	Male/Female
Trainee	Fresher	2	2	Male/Female

Mobile Team

Tech Lead (mobile)	2 years	1	1	Male/Female
Software Engineer (Android)	6 months - 1 year	2	2	Male/Female
Software Engineer (iPhone)	6 months - 1 year	1	1	Male/Female
Trainee	Fresher	1	1	Male/Female

Office/HR Administration

Office/HR Admin	1 year	1	1	Female
-----------------	--------	---	---	--------

Architect/Tech Manager (2)

- University degree in CS degree or MCA or equivalent engineering degree
- 5 years of web application or portal design and development
- Extensive working experience in designing and programming websites, web2.0, portals and web applications
- Strong programming capabilities in at least two of the following: Java, C#, Python

- Strong knowledge in HTML, XHTML, Javascript, CSS
- Strong in PHP, JSP, XML, XSL, XSLT
- Knowledge in Web 2.0 technologies (AJAX, AJAX Frame works, REST/JSON/XML, Mash ups, RSS/ATOM)
- Knowledge in Web frameworks (Django, Cake PHP, Sympony, Zend)
- Knowledge in Javascript frameworks (Prototype, Scriptaculous, jQuery)
- Working experience in web and application servers (Apache, IIS, Lighttpd, Tomcat, Web logic, Web sphere)
- Working experience in Java, J2EE
- Working experience in mysql, sqlite databases
- Working experience in cvs or git or subversion source control systems, eclipse IDE, Ubuntu are preferred
- Working experience in NOSQL databases like couchdb, cassandram hadoop, hbase, MongoDB is a plus
- Working expereince in SCRUM and Agile methologies is must
- Designing/architecture experience in MVC models, Object oriented programming
- Substantial knowledge of Linux (Ubuntu or RedHat) and Windows environments
- Open source technology experts are given preference
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal startup environment and to provide hands-on expertise.
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Tech Lead - Web (2)

- University degree in CS degree or MCA or equivalent engineerng degree
- 2 to 3 years of web application or portal design and development
- Extensive working experience in designing and programming websites, web2.0, portals and web applications
- Strong programming capabilities in at least two of the following: Java, C#, Python
- Strong knowledge in HTML, XHTML, Javascript, CSS
- Knowledge in PHP, JSP, XML, XSL, XSLT
- Knowledge in Web 2.0 technologies (AJAX, AJAX Frame works, REST/JSON/XML, Mash ups, RSS/ATOM)
- Knowledge in Web frameworks (Django, Cake PHP, Sympony, Zend)
- Knowledge in Javascript frameworks (Prototype, Scriptaculous, jQuery)
- Working experience in web and application servers (Apache, IIS, Lighttpd, Tomcat, Web logic, Web sphere)
- Working experience in Java, J2EE
- Working experience in mysql, sqlite databases
- Designing/architecture experience in MVC models, Object oriented programming
- Substantial knowledge of Linux (Ubuntu or RedHat) and Windows environments
- Working experience in cvs or git or subversion source control systems, eclipse IDE, Ubuntu are preferred
- Exposure to NOSQL databases like couchdb, cassandram hadoop, hbase, MongoDB is a plus
- Open source technology experts are given preference
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal startup environment and to provide hands-on expertise.
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Sr. Software Engineer - Web Technologies (3)

- University degree in CS degree or MCA or equivalent engineerng degree
- 1 to 2 years of web application or portal design and development
- Extensive working experience in designing and programming websites, web2.0, portals and web applications
- Strong programming capabilities in at least two of the following: Java, C#, Python
- Strong knowledge in HTML, XHTML, Javascript, CSS
- Knowledge in PHP, JSP, XML, XSL, XSLT
- Knowledge in Web 2.0 technologies (AJAX, AJAX Frame works, REST/JSON/XML, Mash ups, RSS/ATOM)
- Knowledge in Web frameworks (Django, Cake PHP, Sympony, Zend)
- Knowledge in Javascript frameworks (Prototype, Scriptaculous, jQuery)
- Working experience in web and application servers (Apache, IIS, Lighttpd, Tomcat, Web logic, Web sphere)

- Working experience in Java, J2EE
- Working experience in mysql, sqlite databases
- Designing/architecture experience in MVC models, Object oriented programming
- Substantial knowledge of Linux (Ubuntu or RedHat) and Windows environments
- Working experience in cvs or git or subversion source control systems, eclipse IDE, Ubuntu are preferred
- Open source technology experts are given preference
- Exposure to NOSQL databases like couchdb, cassandram hadoop, hbase, MongoDB is a plus
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal startup environment and to provide hands-on expertise.
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Software Engineer - Web Technologies (3)

- University degree in CS degree or MCA or equivalent engineering degree
- 1 to 2 years of web designing and development experience
- Extensive working experience in designing and programming professional websites
- Strong knowledge in HTML, XHTML, Javascript, CSS
- Knowledge in php, python, web frameworks like django, cakephp, zoomla, Zend
- Knowledge in AJAX, web2.0 technologies are preferred
- Knowledge in javascript frameworks like Prototype, Scriptaculous, YUI, jQuery are preferred.
- Knowledge in C++ or Java or Python or C# is must
- Substantial knowledge of Linux (Ubuntu or RedHat) and Windows environments
- Working experience in cvs or git or subversion source control systems, eclipse IDE, Ubuntu are given preference
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal startup environment and to provide hands-on expertise
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Tech Lead - Mobile (1)

- University degree in CS degree or MCA or equivalent engineering degree
- 2 year of mobile application development is must
- Extensive working experience in designing and programming web based or native mobile applications is must
- Strong programming capabilities in at least two of the following: Java, C++, Python
- Strong knowledge in J2ME, Android, BlackBerry, iPhone mobile frameworks
- Strong programming capabilities in objective C
- Strong Knowledge in iPhone/iPad/iOS mobile application frameworks is must
- Working experience in Android mobile framework
- Working experience in mysql, sqlite databases
- Working experience in phonegap, JQuerymobile, Sencha Touch
- Working experience in Mac OS xtools
- Working experience in sencha touch framework is a plus
- Substantial knowledge of Linux (Ubuntu or RedHat) and Windows environments
- Working experience in cvs or git or subversion source control systems, eclipse IDE, Ubuntu are preferred
- Open source technology experts are given preference
- Exposure to NOSQL databases like couchdb, cassandram hadoop, hbase, MongoDB is a plus
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal start up environment and to provide hands-on sales expertise
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Software Engineer - Android (2)

- University degree in CS degree or MCA or equivalent engineering degree
- 6 months to 1 year of mobile application development is must
- Extensive working experience in designing and programming web based or native mobile applications is must

- Strong programming capabilities in at least two of the following: Java, C++, Python
- Strong knowledge in J2ME, Android mobile frameworks is must
- Working experience in Android mobile framework
- Working experience in mysql, sqlite databases
- Working experience in phonegap, JQuerymobile, Sencha Touch is a plus
- Exposure to NOSQL databases like couchdb, cassandram hadoop, hbase, MongoDB is a plus
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal start up environment and to provide hands-on sales expertise
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Software Engineer - iPhone (1)

- University degree in CS degree or MCA or equivalent engineering degree
- 6 months to 1 year of mobile application development is must
- Extensive working experience in designing and programming web based or native mobile applications is must
- Strong programming capabilities in objective C is must
- Strong Knowledge in iPhone/iPad/iOS mobile application frameworks is must
- Working experience in Mac OS xtools
- Working experience in sencha touch framework is a plus
- Working experience in mysql, sqlite databases is a plus
- Substantial knowledge of Mac OSx environments
- Strong programming capabilities in at least two of the following: Java, C#, Python
- Working experience in cvs or git or subversion source control systems, eclipse IDE, Ubuntu are preferred
- Exposure to NOSQL databases like couchdb, cassandram hadoop, hbase, MongoDB is a plus
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal start up environment and to provide hands-on sales expertise
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment

Trainee(3)

- University degree in CS degree or MCA or equivalent engineering degree
- programming capabilities/exposure in at least two of the following: Java, C++, Python
- Exposure to HTML, CSS, Javascript, JQuery Framework
- Exposure to HTML5, CSS3, JQueryMobile
- Expore to LAMP architecture like linux, apache, mysql, php/python/perl
- Exposure to NOSQL databases like couchdb, cassandra, hadoop, hbase, MongoDB
- Enthusiasm for solving interesting problems and learning new open source technologies
- Able to fit in well within an informal start up environment and to provide hands-on sales expertise
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment
- Fresher are welcome (if trained well in a reputed training center)

Office/HR administrator: (1)

- B.Com or B.B.A with strong academic record
- 6 Months to 1 year of experience in accounts and office administration
- Strong knowledge in tally, Microsoft excel and word
- Fluency in written and spoken English
- Working experience in handling accounts/HR
- Working experience in handling office administration
- Able to fit in well within an informal start up environment and to provide hands-on sales expertise
- Entrepreneurial drive, demonstrated ability to achieve stretch goals in an innovative and fast paced environment
